Jakarta, Indonesia

I'm a backend developer focused on building scalable and secure APIs using NestJS and Express.js for web and mobile applications. I design RESTful services, authentication flows, and reliable backend systems that improve performance, enhance security, and support seamless product growth.

Work Experiences

IPB University - Bogor, Indonesia Sep 2025 - Aug 2026

Full Stack Developer

- Developed and maintained full-stack web and mobile applications for research and community service projects.
- Designed and implemented backend systems and RESTful APIs using Laravel, Yii, Express.js, and NestJS, while building responsive web and mobile applications with React and Flutter.
- Collaborated with researchers and stakeholders to translate requirements into reliable software solutions.

Ministry of Agriculture of the Republic of Indonesia - Jakarta, Indonesia Sep 2025 - Dec 2025

Backend Developer Intern

- Modernizing a legacy data portal by rebuilding the backend from CodeIgniter 3 and PHP 5 to Laravel 12 and PHP 8.4.
- Enhanced system security, maintainability, and long-term stability to ensure compliance with cybersecurity audit standards.

IPB University - Bogor, Indonesia Aug 2024 - Jan 2025

Teaching Assistant

- Assisted in teaching practical laboratory sessions, guided students during programming exercises, supervised examinations, evaluated assignments and exams, and provided grades and feedback in accordance with course guidelines.

Education Level

Institut Pertanian Bogor 📍 - Jl. Raya Dramaga, Babakan, Dramaga District, Bogor Regency, West Java 16680 May 2022 - Aug 2026

Bachelor of Computer Science, 3.91/4.00

- 2nd Place, Tech Research – Innovathon, Gadjah Mada University (2025)
- Competitive Programming Participant – PINGFEST, Sebelas Maret University (2023)
- Competitive Programming Participant – FIK Fair, UPN “Veteran” Jakarta (2023)

Global ICT Professional Certification Institution 📍 - Bogor, Indonesia Jul 2026

Certificate in Programming and Software Development - Web Developer

- Developed and delivered a full-stack web application through a 3-day project-based assessment.
- Completed technical examinations and presented the project to assessors as part of the competency assessment.

Binar Academy 📍 - Jakarta, Indonesia Sep 2024 - Jan 2025

Certificate in Back End JavaScript Participant - With AI Literacy

- Build reliable server-side applications using Express.js, Prisma ORM, and PostgreSQL.
- Developed RESTful APIs and implemented backend architecture best practices.
- Applied security principles, performance optimization, testing, and debugging techniques.

Organisational Experience

Computer Science Student Association, IPB Universit - Bogor, Indonesia Jan 2024 - Dec 2024

Education Division Member

Agriinformatics 2024 - Bogor, Indonesia May 2024 - Nov 2024

Head of Competition and Sustainability Division

Skills, Achievements & Other Experience

- Projects 📍** (2026): TernakKu - NestJS, Flutter
- Projects 📍** (2025): IngetAnime - Express.js, React
- Projects 📍** (2025): National Agricultural Data Portal - Laravel, React
